I didn't know how to tell you
That I feel this way
But I know I have to someday

Before the summer days go cold
Cause that is when you're leaving
I hope I'm not a simple memory

Chorus
All i need is just a single moment,
Just a single moment to be yours
I believe
In just a single moment
Just a single moment
Boy you showed me what it means to be loved

I felt in in the air
I knew that something else was there
But I tried to keep it all bottled up inside

Because you had another girl
And that girl she had your heart
But you've always had mine from the start

Chorus
All i need is just a single moment,
Just a single moment to be yours
I believe
In just a single moment
Just a single moment
Boy you showed me what it means to be loved

bridge
Times will change she'll fade away
But I'll be here, I'm yours to stay
Take my hand and please don't hesitate

how to me you mean everything and more
Boy you showed me what it means to

Chorus 2x
All i need is just a single moment,

Just a single moment to be yours
I believe
In just a single moment
Just a single moment
Boy you showed me what it means to be loved
