I need your voice  
to ask you to socialize me  
I want your choice  
I implore you to compromise me

please  
take off my narrow mind  
and hide it away  
I can't stand all the people  
and the words they use to say  
they never got me right  
'cause I couldn't understand  
so please give me your mask  
and help me to pretend

I close my mind  
sitting on my selfmade crown  
I redefine  
my view about this world around

so come on  
take off my ignorance  
and lock it up in your lies  
the fucking point of view  
is all that defines the size  
I never wanted it to be  
just like me  
I can't see,  
I can't breathe  
I can't live

I was wrong  
there ain't no crown for me  
it's all so static  
waste my time  
between the lines I crept  
it's all so static

I need some time  
to realize I'm not that alone  
I'll look inside  
and find someone who's careless too

Get it,  
I don't need your words

to blind my mind  
get out of my sight  
with your sickness  
with your ill fake sight  
you always wanted to be just like me  
you won't reach, never reach  
you can't reach me

I give a damn you're hating me  
I don't care about the way you look at me  
so shit on me  
oh you can't knock me  
better leave my world  
I can't stand your sympathy  
so quit your fake as speaking  
you got nothing more for me  
don't criticize my way  
while your back hides your needs  
no one cares  
and no one bleeds  
and no one gives a shit about my needs  
you see just let it be  
you'll never be one of me
