So you're on vacation. And you're losing hair.
It's permanent and I know you like it.
With you're pigmentation, there's lumps on your skin.
They're permanent and I know you like it.

And if I hit you six times, you know I'd be six off.
And if I hit you eight times, you know I'd be eight off.

Your abbreviations, and your mind creations,
permanent and I know you like it.
And your separations, and heart palpitations,
permanent and I know you like it.

(chorus)

We all know that keys they open doors.
Yeah we do.

So you're on vacation. And you're losing hair.
It's permanent and I know you like it.
