Mute me.
I don't know what is real or what's fake.
Hate me.
Tell mom and dad about what's at stake.
Hear me.
Can you hear my screams inside my mind?
Waste me.
I'm not that happy yet.

Noise and noise and noise and noise.
Noises everywhere that tell me that I'm fine.

Mute me.
Slap me across the face with leather.
Wound me.
Tell mom and dad I forgot the weather.
Stab me.
Serotonin levels aren't quite there yet.
Numb me.
Another suicide attempt gone bad.
