Out in the fields
Out in the woods
You come for me
I can feel your hands
I can feel your hands

Up from the floor
Down on the bed
You feel for me
I can hear your heart

And I am not going to want to go away
And I am not going to give in to you in love

Because I want it all
Captive, captive, all that we've got to give
Captive, captive, because I want it all
Captive, captive, corrupt my soul
Under the sun
Out in the wind
You run with me
You run with me
I can taste your mouth
I can feel your hands

And I am not going to want to go away
And I am not going to give in to you in love

Because I want it all
Captive, captive, all that we've got to give
Captive, captive, because I want it all
Captive, captive, all that we've got to give
Captive, captive, because I want it all
Captive, captive
