What if I told you that I loved you too much
To ever be happy with you
What if I say that there's just no way
If we fall in love then we're through

'Cause I know that you've heard
Those "let's just be friends" words
And I hate to be a cliché
And I know that you know
The way that these things go
Love just gets in the way

What if I told you that I dream about you
Every time my eyes close
What if I say that my heart doesn't doubt you
It's something that my mind just knows

'Cause I know that you've heard...
Those "let's just be friends" words
And I hate to be a cliché
And I know that you know
The way that these things go
Love just gets in the way
And I don't wanna lose you

I'm not sayin' that this is goodbye
I'm just tryin' to tell you
I'm tryin' not to cry
There's something in your eyes that just kills me
I know that you will be ok, but anyway, look...
I love you too much
To ever lie to you
I love you too much... to love you

What if I told you that I loved you too much
To ever be happy with you
What if I say that there's just no way
If we fall in love then we're through

I love you too much
I love you too much
I love you too much

Oh, I love you too much
I know that you know
The way that these things go
Oh, I love you too much.
