So when my voice breaks
It's called interpretation
When I
Hold a note
It's cause I want to...
Not cause I feel anything about you
So don't flatter yourself thinking that I
Love you...
Make you emotional
From major to the minor when I
Lose control
I'm not trying to impress you
Break it down
And I get your attention
But it's just formula
Don't need your validation, validation

This is just a song
The music plays and then
Then it's gone again
This is just a song
The words don't mean a thing
And everytime I sing
I loved you all along
Remember, remember...
This is just a song

Now I've been nothing
Yes, I'm on auto-pilot
Have selfish words
Even singing while I'm sleeping
Just cause you have showed up here to see me
Doesn't mean I'm going home with you this evening
