#### Intro

I see no point in living life that right  
So I just take what I can find  
I see no point in living life that right  
When you're out here in this Jungle  
"It's wild round 'ere you don't  
Wanna spend a night round 'ere"  
When you're out here in this Jungle  
"In This Jungle"  
But you keep asking for trouble  
"You love?"  
You love when trouble comes your way, your way, your way

#### Verse 1

Welcome to Hackney  
A place where I think somebody's been playing Jumanji  
A manor where man are like animals  
An they'll yam on you like they yam on food  
Cats with claws that'll stab a you'  
Act bad an catch a slap or two  
We don't applaud success  
All we clap are tools  
London ain't  
Cool to cruise through where the hunter pray  
Looking lunch today  
And your chains looking like fresh fruit to a hungry ape  
They'll eat on you  
Then laugh about it like hyenas do  
So stick to breezing through  
Like cheeta's do or be a piece of food

#### Chorus

When you're out here in this Jungle  
"it's wild round 'ere you don't wanna spend a night round 'ere"  
When you're out here in this Jungle

"In This Jungle"

But you keep asking for trouble

"You love?"

You love when trouble comes your way, your way, your way

Verse 2

It's blitz amidst the strife here

Got kids with sticks and knives here

It's hype here

We know no different prick; it's just life here

Life the way we know from young the way we're shown

Stacked trapped in flats where our front doors don't face the road

Got CID spinning round in cars

Shifting criminals at large

It's hard

Not to think the bits are just a bing without the bars

Jealousy's what the cheddar brings

For the cheddar it's anything goes

Low enough to rob newly weds for their wedding rings

They couldn't care less 'long as they get it in a€|

Outro

Everyday is waring, never give a warning

Violence is the only way you settle things

Everyday is hating, money that I'm making

Jealous 'cause I'm moving on to better things

Everyday is fighting, rolling in the night now

All you do is watch everyone else get far

You say that Life is hard a€|

When you're out here in this Jungle

"it's wild round 'ere you don't wanna spend a night round 'ere"

When you're out here in this Jungle

"ain't nothing nice round 'ere, trouble what you find round 'ere"

When you're out here in this Jungle

"In This Jungle"

You're always caught in this struggle

But you keep asking for trouble

You love when trouble comes your way, your way, your way
