I could love your body if you wanted,
And I could make your fingers tingle if you let me,
Wrap yourself around me let me show you,
Cause I will spend a whole night long so you know it,

Feel your body close, only you and me,
Kiss you from your nose right down to your feet,
I'll hold you up and take you there,
Don't need a break start to shake
Forget the world around us keep you in this state,
Can't catch my breath, you breathing deep I'll use my
teeth
No need to speak, just lay right down and I can keep
you feeling weak,
I'll brush your hair behind your ears and touch your
cheek,
No need to sleep under these sheets

I could love your body if you wanted
And I could make your fingers tingle if you let me,
Wrap yourself around me let me show you
Cause I will spend a whole night long so you know it,

Won't let your feet touch off the ground,
Have your back against the wall
Give you more and all I have, yeah,
Turn you round and put you there
Feel my lips go round your curves
Control your nerves up to your hair, ooh
So you can be quiet moan if you want to,
Don't be so shy cause you don't need to hide it,
Darling you can grab me tell me anything
I can do all those things just for you

I can love your body if you wanted
And I can make your fingers tingle if you let me,
Wrap yourself around me let me show you
Cause I will spend a whole night long so you know it,

Oh only you, you and I,
Oh only you, you and I

Look through, through my eyes and see inside
And see inside, it's all for you,

I could love your body if you wanted,
And I could make your fingers tingle if you let me,
Wrap yourself around me let me show you
Cause I will spend a whole night long so you know it.
