Girl don't lie, you'll be a woman too, lady don't cry
look what i've done to you
Girl don't lie, you'll be a woman too, lady don't cry
look what i've done to you, done to you, dont to you
done to you done to you
look what i've done to you
done to you done to you
done to you done you

beautiful brown hair, brown eyes,
beautiful face, a waste
your smile kept you grounded
deep in her heart she wasn't feeling it
even when theres blokes that had dough trying to steal
a kiss
we sold ourselves out too short,
giving out no problems
never cared for condoms
never kept you wanted
cause you were just dumped after that and i was
always the response

yeah my doctor, told you one too many times,
respect yourself, your health, your not ready now
but you never ever listened
...kept being given
and now you can't rest in bed, cause there's a baby
coming
your pushing hard and screaming for your mother
but your mum ain't there cause she don't care
the dad could be me but im not there

Girl don't lie, you'll be a woman too, lady don't cry
look what i've done to you
Girl don't lie, you'll be a woman too, lady don't cry
look what i've done to you, done to you, dont to you
done to you, done to you
look what i've done to you
done to you, done to you
done to you, done to you

young woman tryna get right but,
everythings telling her things just to make her think
like,
your not really good enough,
too fat, to thin, too that, too this,
and its, dragging them all in,
what they wanna change, they hate their skin,
everything so they look away,
too small, or too big, not as pretty as the girl in the
magazine.

young girls getting made up
wanna grow up fast cause thats the way we live now
but we're missing out on everything
summer days in the rays playing games with your
friends a bit
look, what we take away from them,
look, what we take away from them,
look, what we take away from them,
look what we take away.

Girl don't lie, you'll be a woman too, lady don't cry
look what i've done to you
Girl don't lie, you'll be a woman too, lady don't cry
look what i've done to you, done to you, dont to you
done to you done to you
look what i've done to you
done to you done to you
done to you done you

Girl don't lie, you'll be a woman too, lady don't cry
look what i've done to you
Girl don't lie, you'll be a woman too, lady don't cry
look what i've done to you, done to you, dont to you
done to you done to you
look what i've done to you
done to you done to you
