Chorus:

I know way too many people here right now
that I didn't know last year.
Who the fuck are ya'll?
I swear feels like the last few nights
we've been everywhere and back but
I just can't remember it all.
What am I doing?
What am I doing?
Oh yeah that's right I'm doin' me
I'm doin' me.
I'm livin' life right now
and this what imma do till it's over.
Till it's over
it's far from over.

Verse 1:

Maximusblack you're pissin' off the wrong dude.
I sent the song and yet you still don't wanna 2v2.
That first rap was nice but I gotta warn you,
I'm comin' at you like a deathball 'cos it's what I do.
It's you and me up in this rap battle 1v1.
I'll be the manner player so I'll say GLHF.
Black with a small dick? Jeff that can't be fun.
I guess TLO is not the only little one.
When I hear you cast I wish you wore a shock collar,
I'll hold your 4 gate off won't need a single spine
crawler.
Your macro's always slipping and your army's always
smaller.
What's it like knowing I'm white but I'm the real baller?
Don't talk shit to me until you learn to hotkey.
I'm wreaking havoc on your workers with my banshee's
your macro's fucked and I'm working up the tech tree.
We both know that you're about to drop that GG.

Chorus:

I know way too many people here right now

that I didn't know last year.
Who the fuck are ya'll?
I swear feels like the last few nights

we've been everywhere and back but
I just can't remember it all.
What am I doing?
What am I doing?
Oh yeah that's right I'm doin' me
I'm doin' me.
I'm livin' life right now
and this what imma do till it's over.
Till it's over
it's far from over.

Verse 2:

Think you can force field me? Jeff just try to do it.
But don't forget my dick will crush it as a massive unit.
Coletrain's the fucking best don't be shy go ahead and
yell it.
Nobody loves you you're a loner just like Bob the
zealot.
I chronod an observer so all your dark Templar appear.
Awh what's that on your face, Jeff is that a tear?
You're like an SCV you're in the rear with the gear.
You're mother seen my penis then she screamed Thor
is here.
I got psionic storm so I'm about to make it rain.
Get off the tracks Jeff or get railed by this Coletrain.
Scout around for that pylon I hid in your main.
If you don't find it then your workers are gonna feel the
pain.
Look up and see me on the ladder Jeff I bet I'm higher.
You're a fucking spawning pool and I'm a greater spire.
Your nexus always full of energy it's never tired.
Protoss still the death of me so you know my entire
life's for aiur.

Chorus:

I know way too many people here right now
that I didn't know last year.
Who the fuck are ya'll?
I swear feels like the last few nights
