I kinda think (Ah)
That you and me (Ah)
Are starting to feel like we're not meant to be (Ah)
And usually (Ah)
You can keep (Ah)
My attention but now I'm starting to drift away (Oh)
And honestly (Ah)
I can't keep (Ah)
Doing what we've been doing faithfully (I know)
So maybe we (Ah)
Should just call it quits today

Cause all of my life (Oh)
I thought I was looking for
Someone just like (Oh)
You but now I need more
Am I wrong for leaving love?
Thinking love could get better
Am I wrong for leaving someone else to find more?

Baby it's not your fault but it's not my fault
Sometimes things just don't work out (Don't work out)
Please don't call me
There's no talking
I don't want to work things out (Oh woah)
What was broken yesterday (Oooh)
We can't argue it away
And I shouldn't have to say this anymore
I gotta say goodbye forever (Woah oh, woah oh)
I gotta say goodbye forever (Woah oh, woah oh)
I gotta say goodbye forever

I see potential to be (Ah, Ah)
Uh so much more (Ah, Ah)
When I finally get up to leave, ah (Ah, Ah!)
Some say love can bring the best out in you (Ah, Ah)
But we got too comfortable (Oh)
And now I gotta mark the hard decision to leave (Ah)

Cause all of my life (Oh)

I thought I was looking for

Someone just like (Oh)
You but now I need more
Am I wrong for leaving love?
Thinking love could get better
Am I wrong for leaving someone else to find more?

Baby it's not your fault but it's not my fault
Sometimes things just don't work out (Don't work out)
Please don't call me
There's no talking
I don't want to work things out (Oh woah)
What was broken yesterday (Oooh)
We can't argue it away
And I shouldn't have to say this anymore
I gotta say goodbye forever (Woah oh, woah oh)
I gotta say goodbye forever (Woah oh, woah oh)
I gotta say goodbye forever

I'm so very sorry for building up your hopes (Aah)
I'm so very sorry for our castle crumbling down (Aah)
But baby I can't lie to myself
Call me crazy but I won't settle for less
I can see it, it's so clear
This road is a dead end oh!

Baby it's not your fault but it's not my fault
Sometimes things just don't work out (Don't work out)
Please don't call me
There's no talking
I don't want to work things out (Oh woah)
What was broken yesterday (Oooh)
We can't argue it away
And I shouldn't have to say this anymore
I gotta say goodbye forever (Woah oh, woah oh)
I gotta say goodbye forever (Woah oh, woah oh)
I gotta say goodbye forever, ever, ever
I gotta say goodbye, yeah, oh goodbye baby
Goodbye forever
Goodbye baby, goodbye forever
