Look beyond what you see
Tell me straight to our greet
Light this fire pass us by
Let the water leave us dry

Like the stars, you embrace
Me so tight in this space
Eat my star twist my lips
On repeat do this quick

This melody, this spell
Is one I grant you
For protection with measures
Of darkening skies

I won't wait
I won't wait
To get my shivering
Black-eyed chills

Do you know which way to go?
In the route of the little spirits

In the dark of the night
I am scared I'm trembling
Light your match guide my way
To the light of daybreak

Falling from head to toe
You crave what you're looking for
Spend this time use it right
On us in this misty mine

This melody, this spell
Is one I grant you
For protection with measures
Of darkening skies

I won't wait
I won't wait
To get my shivering
Black-eyed chills

Do you know which way to go?
In the route of the little spirits
