We started a fire we're gonna keep it lit
Come along and be a part of it
The music's high, while the lights are low
Then you showed up, you know it's not so

Easy you to try to drag a good name down
Torn shattered and bleeding
(I'm bleeding)
It's not easy when your out to out to put us down
(I can hardly believe it).

We'll play all night untill our fingers bleed
A stage and a mic is all I we'll ever need
Your paper and pen will never bring us down
Still you showed up you never make it

Easy you to try to drag a good name down
Torn shattered and bleeding
(I'm bleeding)

It's not easy when your out to out to put us down
(I can hardly believe it).

I swore I'd never let it show
I gone this far, wont let you know
The pain I feel from all those lies
Those sorry tales you cannot hide

It's not easy, you to try to drag a good name down
Torn shattered and bleeding
(I'm bleeding)
It's not easy when your out to out to put us down
(I can hardly believe it).

I swore I'd never let it show
I gone this far, wont let you know
The pain I feel from all those lies
Those sorry tales you cannot hide

Why won't you ever believe me x4
