When you look into my eyes world becomes a better
place and you know I'm here inside love is taking all the
space and baby I love you and you

Chorus

We are birds we fly so high we are falling down with a
dream of you my dreams are fearless we are people
own the planets we live human lives we are angels
we're in danger we are crystal white crystal white

When you look into my eyes sun is touching mountain
top when you look into my eyes it will never have to
stop baby I love you and you

Chorus

Ohhh yeah yeah yeah yeah yeah yeah

Chorus x2
