I would fly away
I would fly to heaven
Tip toe in the back
If I knew where it was at

I could smile this way
I could smile forever
A vision in my mind
A place that has no time

Come take me there
While the world is laughing
It looks so sad, come take us there
And I'll show you what it's like
Make it rain, make it rain
Yeah, yeah, yeah

I could smell this way
Could go on forever
I'll never clean myself
You can all go straight to hell

Come take me there
While the world is burning
It barely turns, come take us there
And I'll show you what it's like

Make it rain, make it rain forever
Make it rain, then I'd stay for dinner
What are we having tonight?
If I can make it rain

When I close my eyes
I can see forever
Never been myself
And I could never be anybody else

Come take me there
While the world is burning
It barely turns, come take us there
And I'll show you what it's like

Make it rain, make it rain forever
If I could make it rain
Then I'd stay for dinner
Climb to heaven

Hang me on the wall, she said
They all go down, they all
Make it rain, if I could make it rain
If I could make it rain

If I could make it rain, make it rain forever
I could make it rain, then I'd stay for dinner
Ask your father, ask your mother
Ask your sisters, they all go down
They all make it rain, if I could make it rain
If I could make it rain
