"Before I Dance With You"

Oh, alright, see him looking over at me
Locking eyes, but that doesnÂ't get you
Nothing
Come on now, you know you wanna
Play this out

Turn me up,
No donÂ't let me down
Let me come clean
I know you got a thing thing for me
Baby show me how you feel feel the beat
Before I dance with you, dance with you
Seriously, you know you wanna leave here with me
But I gotta see you move your body
Before I dance with you, dance with you
Before I dance with you, dance with you

Getting close what you wanna take, take from me
There almost,
But you gotta do me one thing
Come on now, just let the music
Take you out
IÂ'm feeling this world
So donÂ't, donÂ't let me down

Let me come clean
I know you got a thing thing for me
Baby show me how you feel feel the beat
Before I dance with you, dance with you
Seriously, you know you wanna leave here with me
But I gotta see you move your body
Before I dance with you, dance with you
Before I dance with you, dance with you

Baby, baby, show me what you got for me
Baby, baby, show me what you got for me
Show me what you got for me

Let me come clean
I know you got a thing thing for me
Baby show me how you feel feel the beat

Before I dance with you, dance with you
Seriously, you know you wanna leave here with me
But I gotta see you move your body
Before I dance with you, dance with you
Before I dance with you, dance with you
