Car crash
Put my mind to rest
A Flashback
I see it all inside

So get up and fight
I'll show you eye to eye
Get in your mind
I'll show you light to-night

Broken, bleeding
Plug my brain in

Intact
My body put rest
Syntax

Can't believe my eyes

It's a cold hard mind
It robs me blind inside
So get up and fight
This ice cold heart of mine

I'm not living

Boom Shah, shaka, shaka, shaka
Wanna make me want to leave
Wanna make me want to leave
Boom Shah, shaka, shaka, shaka
Wanna make me want to leave
Wanna make me want to leave

I'm Dying
