A living light
This masterpice
A canvas made of memories
So I need you

Break away
Into the night
My heart and yours by candlelight
I can see you

Mark my word tonight
I'm dreaming in your eyes
A sweet surprise of bright starlight
Flying through the night
These diamonds in the sky
My sweet surprise
We meet inside alone

Swept away
In glowing white
These clouds are hidng in the sky
I can see you

Sweet suprise
This satellite
The moon is higt and shining bright
I can see you

Your eyes
Night skies
Shining starlight
I can feel your heart in mine
As we intertwine

Watch the sky
Watch the lights collide
Watch the night
Your brightest light inside
