Girl, my heart is in your hands, I need you to understand.
Please, swallow your pride, I want you to be my guide.
Girl, I love you, I want you, oh, how I care,
when you need me, I'll be there.
I need you, yes, I do, girl.

Girl, my love is all for you, no one else will ever do.
Please, open your heart and let in a brandnew start.
Girl, I love....

Girl, I need you.
Girl, in me you got to believe, I'll be loving you and this you will see
I need you, yes, I do, girl, I need you, yes, I do.
Girl, I need you, I need you, yes, I do, girl, I need you.
[Spoken:] Baby, you gotta know how much I want you, I need you oh so much,
I love you, girl.
