Oh, I know you, I know you, I know you, I know you  
Run around, run around, run around, run around  
Oh and you, oh and you, oh and you, oh and you  
Could run around, run around, run around until I go  
I could go away

Away

I could go, I could go, I could go, I could go away

Away

I could go, I could go, I could go, I could go away

Away

And pick it up, put it down,  
you know I've been living low within the ground  
In the ground, in the ground, in the ground, in the  
ground  
And I don't have a clue what that look on your face is all  
about  
All about, all about, all about  
And I could walk for miles, I don't know where to  
But I could go, I could go, I could go for something with  
you

I could go, I could go, I could go I could go away

Away

I could go, I could go, I could go, I could go away

Away

I could go, I could go, I could go, I could go

I could go, I could go, I could go, I could go

I could go, I could go, I could go, I could go away

Away
