

One Match Left "Whoa"

Visit "[Whoa](#)" on MotoLyrics.com

Sitting there fire side
Staring at your face in the flickering light
Shadows creeping on the ground
Things have never been this good in this old town

Na na na the sun went down
Na na na the stars came out
You held my heart in the palm of your hand
I hoped this night would never end

Whoa whoa

Thoughts are racing through my mind
Hope I say the right thing at the right time

I feel light headed amidst your glow
Wish my shaking hands didn't always show

Nah nah nah the fire dimmed low
Nah nah Nah The silence echoed
You held my heart in the palm of your hand
I wished this night would never end

Whoa
I seem to let these moments pass us bye
Whoa
I need to tell you how I feel inside

(chorus)
