

One Match Left "Would You"

Visit "[Would You](#)" on MotoLyrics.com

The smell of your hair
Like a spring time rain
Washing over my soul
Ill never be the same

You walked into my life
Like a light in the dark
Now is my chance
While I hold you near

Theres something...I need to ask you...

(chorus)
Would you dance a little closer
Would you hold my hand so tightly

Would you whisper little things like...(I love you)

We could spend this life together
Moments become forever
Im waiting for your answer hope is hanging by a thread

Theres something...I need to ask you...

(chorus)

(bridge)
And now I just cant let you go
Please tell me that you feel the same
2x

(chorus)
