### "See You Again"

Sparkling moments  
Have been haunting me in the dark  
Since I lost you, I lost my heart  
Now I'm lonely  
Now tide, face black  
I've been missing you so much I wanna see you again  
I wanna hold you in my arms  
Take me higher to the stars  
I wanna hold you in my arms  
and never be apart Sparkling moments  
Have been haunting me in the dark  
Since I lost you, I lost my heart  
Now I'm lonely  
Now I'm craving for your touch  
I've been missing you so much I wanna see you again  
I wanna hold you in my arms  
Take me higher to the stars  
I wanna hold you in my arms  
And never be apart Take my hand  
Never leave me again  
All I want is to see you again  
Take my hand  
Never leave me again  
All I want.. I wanna see you again
