Peter is smart he know each european country by heart  
he likes to sit under an apple tree on his yard and wait  
for an apple to fall when peter is nine his teacher tells  
him that his planet is dying and someone needs to put  
an end to it all and so peter comes home he tells his  
mom

I'm going out in the world to save our planet and he  
ain't coming back until she's saved I walked my way to  
see the king and parliment if thay don't help I'll do it by  
myself

I don't wanna be da da dum da da dum da da da da da  
da da da dum

Peter is young he tries to talk but no one listens to him  
everybody's busy living and dying not thinking about  
what there doing and look for the boy

Who went out in the world to save our planet and he  
ain't coming back until she's saved he walked his way  
to see the king and parliment but they all turned thier  
heads and walked away singing da da dum da da dum  
da da da da da da da da dum da da dum da da dum  
da da da da da da da da dum

And now I'm going out in the world to save our planet  
and I ain't coming back until she's saved I'm walking in  
the footsteps our young peter made and everbody is  
welcome to join and sing with me

Da da dum da da dum da da da da da da da da dum
