"Christmas Time With You"

Visit "[Christmas Time With You](#)" on MotoLyrics.com

I love the snow falling down
As the flakes all cover the ground, the grass
disappears
There's a manger on the square and carols in the air,
Yeah it's almost here, my favourite time of year

Christmas, when the lights light up the tree,
It's gifts stacked high and snowball fights with friends
and family
I hope Santa can make my one wish come true,
'Cause all I wanna do is spend Christmas time with you

Peppermint candy canes and the cookies that mema
makes put us in the mood
There's reindeer in the sky, and stockings by the fire,
There's one for you, I wonder if you'll be here soon

'Cause it's Christmas, when the lights light up the tree,
It's gifts stacked high and snowball fights with friends
and family
I hope Santa can make my one wish come true,
'Cause all I wanna do is spend Christmas time with you

There's a little mistletoe, I think we both know

It's Christmas when the lights light up the tree,
It's gifts stacked high and snowball fights with friends
and family
I'm so happy Santa made my one wish come true,
'Cause now I'm spending Christmas time,
I'm so glad you're mine oh mine

I love spending Christmas time...
With you
With you

Merry Christmas everyone!
