Girl, my heart is in your hands, I need you to understand.

Please, swallow your pride, I want you to be my guide.

Girl, I love you, I want you, oh, how I care,

when you need me, I'll be there.

I need you, yes, I do, girl.

Girl, my love is all for you, no one else will ever do.

Please, open your heart and let in a brandnew start.

Girl, I love....

Girl, I need you.

Girl, in me you got to believe, I'll be loving you and this you will see

I need you, yes, I do, girl, I need you, yes, I do.

Girl, I need you, I need you, yes, I do, girl, I need you.

[Spoken:] Baby, you gotta know how much I want you, I need you oh so much,

I love you, girl.
