It's a shame
U c that I'm hurtin and u don't know what u did
U probably don't even care to know what it is
U promised that wed be down
U were my best friend
Was it all for nothin?

How could u go?
Right when I needed u
U never showed
The love that I'm always showin to u
Now u know
That I'm gonna leave u
Ur tellin me no
Cause it's gonna hurt u
Feelin so cold

I wanted to know u
But karmas a trip now
U probably shouldn't have left me standin alone
I wanted to love u
But karmas a trip now
U probably should turn around and take urself home
It's jus karma karma
It's just karmas a trip

Ur the flame
I keep runin back to u back to u
Feel the pain
I keep runin to u thinkin that somethins gonna change
But now that the story is over
I'm turnin the page
Baby ur history

How could u go
Right when I needed u
U never showed
The love that I'm always showin to u
Now u know that I'm gonna leave u
Ur tellin me no
But it's gonna hurt u

Feelin so cold

I wanted to know u
But karmas a trip now
U probably shouldn't have left me standin alone
I wanted to love u
But karmas a trip now
U probably should turn around and take urself home
It's jus karma karma
Karmas a trip

What goes around comes around
No more need in u
Me and u and u
The tables have turned around
And now ima lettin u go go
Aaaaaaaiiii yeah

I wanted to know u
But karmas a trip now
U probably shouldn't have left me standin alone
I wanted to love u
But karmas a trip now
U probably should turn around and take urself (2x)

Karma karma
It's just karma karma
It it's just karmas a trip
