The boulevard is full of people floating down from the  
hill

It's saturday night and babe you're not with me  
Somebody said teacher comes when the student's  
ready and clue in

What if a spider finds a crack after such a long time  
but damn the crack is not that deep

it's such a bad thing when you're not able to make up  
you mind  
is like the sadness's the only thing that gonna makes  
you cry

you the stronger you my wonder baby, you're the only  
one  
and after all those beers i think i'll go home  
and lay my body tonight

how much good did love to me?  
how long it gonna makes me bleed ?  
i'm still waiting on a feeling is not ready to be,  
what have i done i'm forsaken i didn't know what i did!
