That's what i want and what i have
that's what i got look and step back
mister i lie, truth might be there
somebody trust me i wanna share
it's crazy but the thrill is there, right there.

I got a friend, looks like MTV
should i trust her or should i care?
Am i the shepherd, for free?

Am i her magic night bend,
am i her light, am i her man, am i free?!

It's your time now you got something
Shadows on me but i'm just hiding.
It's your time now you got something.
Shadows on you, keeps hurting me.

Converted on nothing, converted on nothing, on
nothing but on me.
