It's up to you, believe or not  
People i met say you gotta move on  
Like the Sun keeps the sky  
Or the Moon climbing high  
And the time that's running through.  
Well it's hard if you try  
and you live just one life  
When the only problem is you...  
it's really up to you

Turn me upside-down and again!

Turn me upside (x 2)

Excuse my love, excuse my music and my secret job  
Well i look in your eyes  
when you promise your lies  
'cause you know i like to see you through  
when it's time to forgive  
when it's time to fight  
one thing in your mind,...it' s true.  
It's really up to you.

Turn me upside-down and again!
