You and me used to be so shy  
I didn't dare look you in the eyes  
And now we bite each other's nose  
And now we rip each other's clothe

I'm your body addict  
You're my body addict  
I love you you love me  
you love me I love you  
I love you

You and me it's like a house on fire  
People say we look pretty good together

I never thought you'd be my lover  
though I hoped many times more than I remember

I'm your body addict  
You're my body addict  
i love you you love me  
you love me I love you  
I love you

You and me it's like a house on fire  
People say we look pretty good together  
I never thought you'd be my lover  
though I hoped many times more than I remember
