Let's go!

Well woke up in another year
To burn in silhouette sky will broken
And fallen trips upon my head
Then I saw a dozen comes out of their windows
From a building I broadcast open minds
Knows who wonder radio did dance
Oi oi oi

When the sun put to fly your loyal flag
Try to build up was a nationality
There's no stars and stripes but silver ferns

But I know
This is a place
Where I'm not just a face
And this part of the world I know call my home
Oi oi oi

I'm not ever gonna waste my time
Living life like all the rest
So here's my toast just for the coast
Oi oi oi

Sunny beaches and palm trees
Got a rhythmic diversity
Yeah my little brother there to me
And your nines down the road

And you don't bother me
I won't bother you
So no never mind what ya heard
Just come on sing along
I said come on sing this song because

We're not gonna live
Our life's like all the rest
So here's our toast just for the coast
Oi oi oi

We're not gonna live
Our life's like all the rest
So here's our toast just for the coast
Oi oi oi

(We don't want to [2x])
