Ziggy

You've got to express yourself 3x

Are you ready?

You've got to express yourself

Allright now

Nneka

Life is where you struggle

It gives you pain, it gives you trouble

Sometimes you feel though world moves without you

Yes...

And those times when you have fear

Believing love and change

When in the place where you stuck

you're hurt, no trust your blood

Just remember...

All you've achieved (all you've achieved)

Go back and reach (go back and reach)

It inna your dreams (it inna your dreams)

Gonna make to your soul

You've got to express yourself

Express yourself

You've got to express yourself

No matter what they do to you

You've got to express yourself

No matter where they take you to

You've got to express yourself

No matter what they do to you

Ohh yea, yea...

So the heart, road drivin' is where you write

Along the way, the truth you find

There are many, many, many ways that you could go

Which way is right only you can know

Just remember...

All you've achieved

Go back and read inna your dreams

Connect to your soul

You've got to express yourself

Express yourself
You've got to express yourself(allright now)
No matter what they do to you
You've got to express yourself
No matter what they say to you
You've got to express yourself

Just remember...
All you've achieved
Go back and read inna your dream
When you are down and in despair
You have no fear
Express your pain, or let it go,let it out!

You've got to express yourself(right now)
(ye ye ye)You've got to express yourself
No matter what they do to you
You've got to express yourself
No matter where they take you to
You've got to express yourself
No matter what they do to you
You've got to express yourself(gotta express yourself)
You've got to express yourself
Your Pain, Your Love, Your Heart
You've got to express yourself
Tell the world what you're going through
No matter what they do to you
No matter where they take you to
Tell them why...
Tell them why...
You've got to express yourself 5x
