The time has come 4 u to see  
That love is something else u practise it to be  
The line is long  
4 u and me  
That leads us 2 the very debt of our hearts  
We're still on the surface deceiving ourselves  
Inside we hate,  
and want 2 see our best friends fall... oh

Let us make a change why can't we turn the page  
Lord make us able  
Without u we are totally unstable

Let us make a change why can't we turn the page  
Lord make us able  
Without u we are totally unstable

U talk about peace  
Put it in ur mouth  
The same mouth u use to declare ur bombs

Ur system is a joke  
No heart in it  
It's choking us to death  
We living in decept so  
Tell me oh, please tell me that  
Love, ain't what u are talking about on TV  
Love, ain't what u practice it to be  
Love, ain't the Love that u are giving me  
Love, gotta be something un can not compare anything  
to

Let us make a change why can't we turn the page  
Lord make us able  
Without u we are totally unstable

Let us make a change why can't we turn the page  
Lord make us able  
Without u we are totally unstable
