Come Back Home

Verse

You're so beautiful and you need to know
That I'm your man and losing you is not my plan
When I'm alone, I've got my phone
To keep you close to me but nothing beats you smiling

Chorus

Come back home
Come back home
Come back home, don't forget you're gone
Come back home

Verse

Please take me back in time
So I can change my mind about this money thing
And both of us can be happy its not
Gonna go to waste
Not this time, I hope you find that shining light
That guides you right to me

Chorus

Come back home
Come back home
Come back home, don't forget you're gone
Come back home

Bridge

And I said no, there ain't anybody to hurt you
And i said no, There ain't anybody to hurt you
And I said no, there ain't anybody to hurt you
And i said no, There ain't anybody to hurt you

Chorus

Come back home
Come back home
Come back home, you've been lost before
Come back home
