"Lost"

Lost

Verse
I donâ€™t think you understand how much
I tried to keep the thoughts of you untouched
I donâ€™t think weâ€™ll have a chance to run
Before the wars, the lies and storms are done

Pre chorus
No one has to find out where weâ€™re gonna go
I could scream it out loud and theyâ€™ll never know

Chorus
We could be sailing away, across the Atlantic
Where the fog makes a wall, with no sights of landing
Stranded, Standing on top of a mountain
The sun and the seas or the birds in between
When were lost

Verse
Honey we can make this work
A truth will come thatâ€™s so much worse
Letâ€™s stay wide awake cause if weâ€™re sleeping
Weâ€™re wasting time unless weâ€™re dreaming

Pre chorus
No one has to find out where weâ€™re gonna go
I could scream it out loud and theyâ€™ll never know

Chorus
We could be sailing away, across the Atlantic
Where the fog makes a wall, with no sights of landing
Stranded, Standing on top of a mountain
The sun and the seas or the birds in between
When were lost

Bridge
Iâ€™m a million miles away
Alone watching the sunset
Alone watching these stars
Alone Iâ€™m here forever
Youâ€™ll never be to far

Iâ€™m a million miles away
Alone watching the sunset
Alone watching the sunset

Chorus
We could be sailing away, across the Atlantic
Where the fog makes a wall, with no sights of landing
Stranded, Standing on top of a mountain
The sun and the seas or the birds in between
When were lost
