I am not who you think I am
Well I can't never be who you want me to be
I tried to be the perfect gem, but this love goes to
waste

I am not who you think I am
Well I can't never be who you want me to be
I tried to be the perfect gem, but this love goes to
waste

My love to you is fading away

My love to you is fading away
Like a cloud on a sunny day

My love to you is fading away
Like a cloud on a sunny day

I am not who you think I am
Well I can't never be who you want me to be
I tried to be the perfect gem, but this love goes to
waste

My love to you is fading away

My love to you is fading away
Like a cloud on a sunny day
My love to you is fading away
Like a cloud on a sunny day
