Your tuned in to the rolin 20s
Rolin 20s rizzle
Old school motherfucker
Yeah yeah
Arrive firstly bring up all my wizards and witches
Rizzle kicks here to deliver the sickness
Trash the band *magi nat*? ricin the stitches
Old school like you been to the pictures yeah
I want to be makin the magic
Sit down on your right clif
Except less carpyer acting
Oh we like having you why you decening
The dudes hurry by arrived
Don't forgive gives a shit yeah
Check their resumÃ©
Or let us demonstrate
Me and my friends
We know how to celebrate
And that's fact not something we premeditate
All up when people thought that they will blink and
levitate
We will never say no to a good time nah
We will never say no to a memory
And will always say yes to an invite
We live life on a back of this melody

Me and my friends spending life in plastic
Brand new times and brand new happenings
We get up to all kinds of antics
there's another one, that's classic
Oh that's classic
Oh that's classic
Oh there's another one, that's classic
We get up to all kinds of antics
there's another one, that's clastic

We got a new flat rented
A nice little visit
Photos on walls, people smiling in pictures
We could subscribe to that image
Plus my room is called a cannell

Where you find all the *bark* bark*
Fun times accrue when they end up a blur
Told her my name is
She said that she heard
Told her that I'm really good with the words
Doesn't have to save my friends when they slurb
Yo living off living
Living aint easy
Living like a teacher
Giving out CDs
What do I want to be
A. if you're lucky
Your life all need to be great
It is lovely
F the obligatory
Yes creativity
I think no standout where ever I line
Picture to my left
Pass to my right
Arm spread wide like a bird in flight
Yeah

Me and my friends spending life in plastic
Brand new times and brand new happenings
We get up to all kinds of antics
there's another one, that's classic
Oh that's classic
Oh that's classic
Oh there's another one, that's classic
We get up to all kinds of antics
there's another one, that's clastic
