Ive been around and Im just wishing on a star
Ive travelled a long way, but I never been this far
Ive seen the world with my eyes, never did I know
But Im gonna find a way, no matter what they say

Chorus:

In the rivers of joy, hallelujah, joy - I believe
In the rivers of joy, hallelujah, joy - I will find
In the rivers of joy, hallelujah, joy - all the happiness
In the rivers of joy, hallelujah, joy - of the world

Ive been around and Im just wishing on a star
Ive travelled a long way, but I never been this far
Ive seen the world with my eyes, never did I know
I have to find a way, no matter what they say
There are times when I just wanna lay down on the
ground

And never rise again no matter whats been found
But then I realise, I have to carry on
I try to move along to the rivers of joy

Chorus

So many people pass me by without a sign
I try to catch them but I dont know if its right
As far as I can see, I still got much to learn
I have to find a way, no matter what they say
Its time to wake up now, 'cause much is still undone
I made up my mind and nothing gets me down
And I wont stop this time until Im really through

I have to move along to the rivers of joy

Chorus

And now when I know myself
I see it all so clear- theres nothing more to fear
You can find joy and happiness
No matter what storm you come across
So hear me when I say, youre here to stay
Hold on tight and Ill be right

You can find joy and happiness

No matter what storm, just happiness

You just take a look deep down- to the rivers of joy

Chorus
