Broken down  
Broken axle  
Side of the road  
A couple of night owls  
Making plays  
Making plans now  
But not today  
Stuck in limbo

And get our of dodge  
Get out of this place  
Get your team together  
And if you got runners  
Then get 'em on base

And steal this one on back because it's yours to begin  
with  
And if New Orleans won't win tonight then go to the  
bullpen  
And build that lead again

Build your town again

Lost the way  
Lost the pictures  
Lost the rest  
So start it over  
So broken down  
So you fix it  
Find middle ground  
And walk it

Lights out  
Time for bed  
You little strangers  
You little friends  
Lights out  
Go home  
If you've got one to go to
