No burden baby no
No trouble I don't mind
Don't sell me any future
If I'm still stuck behind

Some days I love you
Some days I don't
We might make April or May
But someone's got to change
Or else we won't

I'm working on the steps
Taking pain-staking tests
Don't crush my inner kid
When you know those days were best

What's it gonna take for you to really love me?
What's it gonna take for you to really care?

No burden baby no
No trouble I don't mind
Don't sell me any future if you're leaving me behind
