"Crush"

Visit "[Crush](#)" on MotoLyrics.com

Something about the way you look at me
As you move those hips to my melodies
Close to you is where I want to be
Wrapped in my arms for eternity

Babe, I've got a crush on you
I like the way your body moves
Babe, I've got a crush on you

I've waited so long for someone like you
Your skin, your grin, your touch, the little things you do
The more we hang out, the more I want you
Lets collide, lay by my side and watch me play with you

Babe, I've got a crush on you
I like the way your body moves
Babe, I've got a crush on you

I want you so bad
There is nothing I wouldn't do for you
To feel your body next to mine
Cause I've never had
Someone as good for me as you
Baby you're so fine

Babe, I've got a crush on you
I like the way your body moves
Babe, I've got a crush on you

Baby come over, closer for a moment
I'll nibble you all over
Baby come over, closer for a moment
Lets do it all over and over
