Honestly
My life can't go on
Without you and me
Now that you've gone

I tried so hard
To make things right
Someday I hope
You realize
Do you still care
I'm on own
In despair
My heart is sore

I spend my time

Up all night
Your photographs
Are by my side
If you come back
We'll work it out
In my arms
Forevermore

Honestly

Come back to me baby
Around you is where I wanna be
Come back to me baby
So good when you're close to me
Come back to baby
We belong together
