"My Valentine"

Visit "[My Valentine](#)" on MotoLyrics.com

t's been 14 days since you've gone
Still feels like you're here now
Your everything
Your everything I desire
Baby I think you should know
This songs for you from my heart

Your beautiful
So beautiful to my eyes

I don't want to lose you now
I've waited for you for so long
Your just like an angel
Could you be my valentine

I'm sitting out on the porch
The stars above so bright
And all I want is
To cuddle with you through the night
I know were years apart
But I don't care what they say
Cause my love for you

Will never fade away

I don't want to lose you now
I've waited for you for so long
Your just like an angel
Could you be my valentine?
I don't want to lose you now
I've waited for you for so long
Your just like an angel
Could you be my valentine
