Please tell me that there's no such thing,
because, every breath is in and out of spite.
Gotta catch that vaccine.
Gotta catch a solid breath.
Just take a deep breath and calm down.
Agnostic, apologetic, underappreciated,
overcompensated, overrated big blur in the mind, but
your looking fine.
I forgot what I just said, and it echoes in my head (in
my head)
nice and loud.
Tape recorder, 12 hours worth.
He was gonna commit suicide if he sat there for just
one more minute, but after one drink. Just, after one
drink.
