Well if i die tonight, well you hated me  
Would you say you love me at my wake  
And if i die tonight, in my car  
You'd stare at the stars, and think of me

Oh well if my death was beautiful  
would that make our love beautiful?  
Well if i died in flames  
would your heart do the same for me

Oh what would i do, without you  
I'll sing what would i do, without you  
I'd be lost.  
Well if i died and left a broken soul  
it would leave a hole, in your life  
Well if i died and left you with no one  
Would you stare at the sun and think of me

Well i wrote a million love songs for you  
And everyone of them says i love you  
And i meant it from the heart  
Yeah everyone of those words was true  
about you

Oh what would i do, without you  
I'll sing what would i do, without you  
I'll sing what would i do, without you  
I'll sing what would i do, without you  
I'd be lost.
