We've come to the end of you
And I must love and let die
And let die, and let, and let die
Die, die, die, die, die, die, die, die

You, you, you, you hurt still, yeah
You felt real
It's like you choose to abuse me, yeah, yeah
Your love kills

And what good am I dead?
(Left undone)
I'll get rid of you instead
(I will pop this gun)
I just need to get ahead
(And just move on)

Gotta love you, love you
Love your love but let die
We've come to the end of you
And I must love and let die, die, die
Must love and let die, die, die

Warm blooded murder
I, I, I, I feel ill, yeah
Unfulfilled

Man, you bruise and misuse me, yeah
Your love kills

And what good am I dead?
(Left undone)
I'll get rid of you instead
(I will pop this gun)
I just need to get ahead
(And just move on)

Gotta love you, love you
Love your love but let die
We've come to the end of you
And I must love and let die, die, die
Must love and let die, die, die

Warm blooded murder

I can't be left undone
So I will pop this gun
I've got to move along

Love you, love you, love you
Believe you, done

We've come to the end of you
And I must love and let die, die, die
Must love and let die, die, die
We've come to the end of you
And I must love and let die, die, die
Must love and let die, die, die

Warm blooded murder
