Night crawls along like some lullaby  
Crimson darkness wash your tired eyes  
Into the secret house you're thrown  
Can you tell or are you on your own

Daughter Of Sad - I wanna know!  
Daughter Of Sad - I wanna know!

Down on mercury road you go  
The blade is in your hand but you don't know  
Out of the secret house you're thrown  
What are you doing there all alone

Daughter Of Sad - Speak to me!  
Daughter Of Sad - Speak to me!

Unknown fires took you away  
From it's golden grip your body sways  
Into the secret house you're thrown  
Cannonballs and fireworks down below
