I'm like baby,
where did your love go?
you say that i got it,
boy that's so damn hard to believe.

I said baby, uh uh,
where did your manners go?
you used to open doors,
and I adored your courtesy.

So if you really really really
wanna stay in my bed,
you got to win me over again.

- Why did you Let it Slip? (Slip)
bring your love back to me, (back to me)
you put your heart back in it,
say it like you mean it,
that's how it used to be.

- Why did you Let it Slip? (Slip)
give me that TLC, (give it back to me)
and put your mind back on it,
do it like I want it,
that's how it used to be.

- Why did you Let it Slip?

I'm like baby, uh uh,
where did that charm go?
you used to say I'm pretty,
give me all that nitty gritty I need.

I said baby, uh uh,
where did your style go,
you used to be on top of your game,
and now you look unclean.

So if you really really really
wanna stay in my pants,
you got to do better than that.

- Why did you Let it Slip? (Slip)
bring your love back to me, (back to me)
you put your heart back in it,
say it like you mean it,
that's how it used to be.

- Why did you Let it Slip? (Slip)
give me that TLC, (give it back to me)
and put your mind back on it,
do it like I want it,
that's how it used to be.

- Why did you Let it Slip?

Baby, where did my smile go?
you used to cheer me up but now I'm tearier than 10
babies,
Oh maybe, maybe you're swimming on the other side,
it's hard to believe how you could ever get enough of
me.

- Why did you Let it Slip? (Slip)
bring your love back to me, (back to me)
you put your heart back in it,
say it like you mean it,
that's how it used to be.

- Why did you Let it Slip? (Slip)
give me that TLC, (give it back to me)
and put your mind back on it,
do it like I want it,
that's how it used to be.

- Why did you Let it Slip? (Slip)
bring your love back to me, (back to me)
you put your heart back in it,
say it like you mean it,
that's how it used to be.

- Why did you Let it Slip? (Slip)
give me that TLC, (give it back to me)
and put your mind back on it,
do it like I want it,
that's how it used to be.
